Dear Nathan

On behalf of the Community Cafe Incorporated I would like to thank you for helping us update our website recently.

From the very first meeting with you we found you to be highly professional, informative and customer focused. Nothing seemed to be a problem for you in your quest to help us update our image via our website.

At every point in the process we found you to be incredibly helpful and flexible. We finished with a great result within the agreed time frame and as a result we are incredibly appreciative of everything you have done and are still doing for us.

As a small NFP organization it makes a huge difference to work with people like your self and we have no hesitation in highly recommending your services to anyone looking for assistance with their website.

Regards

*John Lupton*
